

New Yorkers For Fair Use strongly opposes NPRM 02- 230 and so do I.  
I too believe the Broadcast Flag is theft. I want no government entity or  
business dictating what I can or cannot do with my personal computer as long as  
my use is legal.

I am no less a producer than a consumer. I am a free individual, creative and  
productive. I am an American by birthright, and I value my freedom. I object to  
this NPRM which would limit my rights to contribute fully to the progress of  
arts and sciences using digital devices.
